CAREER OBJECTIVE

Aspiring Software Development Engineer with strong fundamentals in Computer Science, Data Structures & Algorithms, and hands-on experience in Python and Machine Learning. Adept at analytical thinking, debugging, and problem-solving through real-world projects in data science and web development. Familiar with software development lifecycle (SDLC) concepts and eager to apply my programming skills toward test automation and software quality. A quick learner with the willingness to adapt to new tools and technologies, seeking to contribute meaningfully to a development and testing environment..

EDUCATION

Dr. Akhilesh Das Gupta Institute Of Professional Studies
Bachelor of Technology [Computer Science Engineering]

Delhi
2023-2027

TECHNICAL SKILLS

Programming Language: Python, C, C++, SQL, Java

Data Structures & Programming Concepts: Data Structures & Algorithms , Object-Oriented Programming (OOPs) , System Design basics

Data Science & Machine Learning: Exploratory Data Analysis (EDA) , Data Cleaning & Preprocessing , Feature Engineering , Regression, Classification, Clustering , Model Building, Evaluation & Optimization

Tools & Libraries : NumPy, Pandas, Matplotlib, Scikit-learn, Google Colab

Databases : MySQL

Version Control : GitHub , Git

Testing & Methodologies: SDLC, Agile/Scrum basics

CERTIFICATIONS

- Data Science and Machine Learning Specialization by IBM – July'25
- Hands-on experience with real-world datasets
- Link :- <https://courses.cognitiveclass.ai/certificates/d786f00e5254402781f43df91603a933>

EXPERIENCE

Deloitte Virtual Internship – Data Analyst

- Gained hands-on exposure to data analytics concepts and business problem-solving
- Worked on data interpretation, insights generation, and analytical thinking
- Developed an understanding of how data-driven decisions are made in large organizations

PROJECTS

Project:- Customer Churn prediction :- https://github.com/Vanishka-kamboj/customer_churn_prediction

- Built a machine learning model to predict customer churn using structured business data
- Performed data cleaning, exploratory data analysis (EDA), and feature engineering
- Implemented classification algorithms and evaluated model performance using accuracy and other metrics

ACHIEVEMENTS

- Participate in GeeksForGeeks Hackathon – Oct'24
